

Date:

Dear _____ M.P.

I have enclosed some information which I would like you to read.

The enclosed document/s relate to my constitutional rights as a Canadian citizen to make free choices with regard to my health and wellbeing.

As a constituent and a voter, I ask you to consider the growing evidence that Canadians are being harmed by the restriction of their access to safe and effective products. Supplemental information is available at <http://www.nhppa.org>

Since my freedom of choice is currently being eroded by unnecessarily onerous regulation and the welfare of myself and my family is at risk, I would appreciate your thoughts on the issues raised in a considered and timely reply.
