

DO YOU THINK NATURAL HEALTH PRODUCTS SHOULD BE REGULATED IN THE SAME WAY AS CHEMICAL DRUGS?

Neither do we.

Sign the Charter of Health Freedom Petition today!

- Protect your fundamental right to access the health care products and practices of your choice.
- Secure all forms of Natural and Traditional Medicine.
- Support appropriate regulations for Natural Health Products.

The Charter of Health Freedom could stop the current regulatory crisis affecting you now.

It ends the criminalization and censorship of our natural health community. It is the only real solution in Canada that can protect people choosing natural remedies and practices from government interference. Your health journey is personal, not political.
