Canadians fought hard to prevent Health Canada from regulating natural products as chemical drugs. When **elected officials** with the Standing Committee on Health held broad consultations and came out with 53 recommendations on how to regulate natural products, they were clear that natural products should not be regulated as chemical drugs. This led to the *Natural Health Product Regulations*.

An *Access to Information Act* request reveals that the **unelected bureaucrats** who dreamed up this idea to undo the Standing Committee recommendations are:

1. Anil Arora ph. 613-951-9757
2. Paul Glover ph. 613-670-1777
3. Pierre Sabourin ph. 613-957-1804
4. Simon Kennedy ph. 613-957-0212.

Our *Natural Health Product Regulations* are the result of decades of hard work and expertise. These bureaucrats are undermining this *without any evidence* to justify the changes. I want this stopped.

Health Canada believes that I do not have the right to decide how I am going to treat myself when I am sick. Our drug laws are structured to prevent me from: (1) having truthful information about natural products, and (2) taking natural products that Health Canada has not approved of. I have never consented to losing my rights over my body. I am not consenting to a drug model

that gives Health Canada the sole right to decide what information I can have and what I can use to treat myself when I am sick. I am all for being protected against unsafe products. Instead, I am being prevented from accessing truthful natural health information + losing my right to choose how I will treat my body.

I am hereby asking you to:

1. Stop Health Canada's proposed plan to regulate natural health products as "Self Care Products" under the same set of regulations as chemical non-prescription drugs;
2. Add the definition of Natural Health Product to the *Food and Drugs Act*, and to
3. Adopt the *Charter of Health Freedom* as law.
