Health Products
(Orthomolecular Medicine News)

NHPS* are SAFER than FOOD!

* Natural Health Products

As a constituent residing in the [redacted] postal code, I'm asking for your urgent help. Canadians fought hard to prevent Health Canada from regulating Natural Health Products (NHP's) as dangerous synthetic chemical drugs. When **ELECTED OFFICIALS** with the Standing Committee on Health held broad consultations and came out with 53 recommendations on how to regulate NHP's, they were 100% clear that ultra safe NHP's should not be regulated as dangerous chemical drugs.

UNELECTED BUREAUCRATS with Health Canada recently proposed MASSIVE new and significant chemical drug style fees to import, manufacture and sell NHP's. In Bill C-47 they have also perverted Vanessa's law (designed for deadly synthetic drugs) to include ultra safe NHP's. These two actions are unfair, unrealistic and so costly that it will force many small to medium-sized businesses to discontinue products and shut down Canadian operations. Why is Government unnecessarily adding to inflation on health and wellness products, when Canadians are already financially stretched to the max?

When questioned about why synthetic Drug regulations are being used to strangle to NHPs - the **unelected bureaucrats** respond with: "Health Canada has been developing and consulting on the Self-Care Framework, with the intent to ensure that the regulatory oversight for self-care products – including NHPs – is proportional to risk". This begs an obvious question... if NHPs are safer than food – why is the government wasting untold billions in regulatory tax dollars to protect us from dangers that do not exist?

This is **BUREAUCRATIC TREASON** when you consider that Health Canada allows Canadians to freely import identical NHP's from USA based websites with ZERO regulatory oversight, administrative fees or labeling laws. Why are the UNELECTED BUREAUCRATS at Health Canada discriminating against Canadian products, killing jobs and inflating retail prices to pay for even more needless bureaucracy? How can such anti-Canadian regulations be allowed to progress? The bureaucrat primarily responsible for this Big Pharma agenda is:

• **Stephen Lucas**, Deputy Minister, Health Canada Tel: 613-957-7790 Email: stephen.lucas@hc-sc.gc.ca

I am hereby asking you to:

1. Stop Health Canada bureaucrats from strangling NHP's with HUGE administrative fees (so called "cost recovery" for a needless bureaucratic make work program) and discriminatory labeling laws.
2. Repeal sections 500 thru 504 from Bill C47.
3. Stop Health Canada from regulating ultra safe NHP's as dangerous synthetic drugs – as per recommendations from the Standing Committee on Health.
4. Appoint a Natural Health Product Ombudsman.
