## THE NHPPA ANNOUNCES THE TABLING OF THE THIRD LARGEST PAPER PETITION IN CANADIAN HISTORY AND THE LAUNCH OF THE WORLD'S LARGEST HEALTH SHOW

The [Natural Health Product Protection Association](https://nhppa.org/) (NHPPA)<sup>i</sup> has announced that the Citizen Petition in support of the [Charter of Health Freedom](https://www.charterofhealthfreedom.org/) (Health Charter<sup>ii</sup>) will be driven across the nation starting in Victoria BC on October 4<sup>th</sup>, 2025. It is to be delivered at the end of October on Parliament Hill.

The Citizen Petition in support of the Health Charter is currently the third largest paper petition in Canadian history. There are currently over 147,000 signatures.

The Health Charter will codify our existing health rights. It will also require the Federal Government to act in the best interests of Canadians when regulating natural and traditional remedies. Currently the Federal Government is not under any legal obligation to seek good health outcomes or even to act in the public interest when regulating natural and traditional remedies.<sup>iii</sup>

It will take three weeks for the Health Charter to travel across Canada. During the tour the NHPPA will host the largest health show ever held (called the World's Greatest Health Show). The Health Show will include presentations by:

- Canadians who rely on natural and traditional remedies;
- Leading Health Experts;
- Health Practitioners explaining their healing traditions and their successes;
- Health Food Stores regarding successes in helping people and their current challenges;
- Legal and Regulatory Experts on health rights, censorship of truthful health information, and the regulatory environment.

The Health Show is the World's first in having ordinary Canadians sharing their health stories. The World's Greatest Health Show and the Health Charter Tour are meant to bring Canadians together with a better understanding of the benefits of our natural and traditional healing traditions.
